

Safety Suite

The Workplace Safety Management Suite

RELAX

SAFETY IS UNDER CONTROL

For complete safety management at the workplace in an immediate and effective way

SAFETY SUITE

The System

Safety Suite is an **immediate**, **adaptable** and **modular** system designed to optimize workplace safety.

The **web-based** nature of the software allows the system to easily adapt to different departments and business areas. Modules can be activated as **Software As A Service (SaaS)** to have all the data in the Cloud system and make them easily accessible from any location through a web browser

SAFETY SUITE

Advantages

Always Update

on sector-specific regulations through monitoring by security consultants

Reliable

Thanks to high safety standards

Flexible

thanks to the structure in separate but complementary modules

Safe

Increased risk and negligence prevention, resulting in lower legal and insurance costs

Web-based

accessible from any device connected to the Internet (desktop or mobile)

SAFETY SUITE

Modules

The suite consists of **six different modules for process management:**

Safety Booster

safety management at the workplace

Safety Contractors

contracts and subcontracting management

Safety Coach

training management

Safety Doctor

management of health surveillance

Safety Waste

waste management

Chemrisk

chemical risk management

SAFETY BOOSTER

Safety Management

Reliability and **simplicity** in the organization of the activities of the Head of Prevention and Protection Service (RSPP), in compliance with the provisions of the Single Text on Security D. Lgs. 81/08 and subsequent amendments and additions.

Advantages

- Effective control of individual risk
- Optimized job management and risk management for business DVR writing
- Effective delivery and monitoring of personal protective equipment
- Ease in managing RSPP activities

SAFETY BOOSTER

Safety Management

Reliability and **simplicity** in the organization of the activities of the Head of Prevention and Protection Service (RSPP), in compliance with the provisions of the Single Text on Security D. Lgs. 81/08 and subsequent amendments and additions.

The screenshot shows the Safety Booster web application interface. The top section displays a 'Dvr Generale' (General DVR) form with fields for Name, Description, and Address. The main dashboard features a navigation menu on the left and a central area with several widgets:

- Mansioni**: 79 total, 76 Mancioni Gestite, 78 Mancioni Valutate
- Utenti**: 1778 total, 1524 Utenti Attivi, 254 Utenti Disattivati
- Checklist**: 1 total, 0 Safety Condition, 1 Behaviour Observation, 10 Totale Compilazioni
- Approvazioni poste alla tua attenzione**: A list of pending approvals.
- Flussi avviati**: A list of started flows.
- Consegne DPI in sospeso**: A list of pending PPE deliveries.

The interface is powered by jsb (Job Safety Booster).

SAFETY CONTRACTORS

Contracts Management

Effective management of all contracts and subcontracting in compliance with the requirements of art. 26 of Legislative Decree no. 26. 81/08 on obligations related to contracts.

Optimal management of all security aspects in contracts with external suppliers and of the collection and orderly storage of tax and administrative documentation.

Advantages

- Effective prevention of risk from contracting activities
- Lower legal and insurance costs
- Effective and efficient management of HSE's activities
- Reduction of paper documentation costs

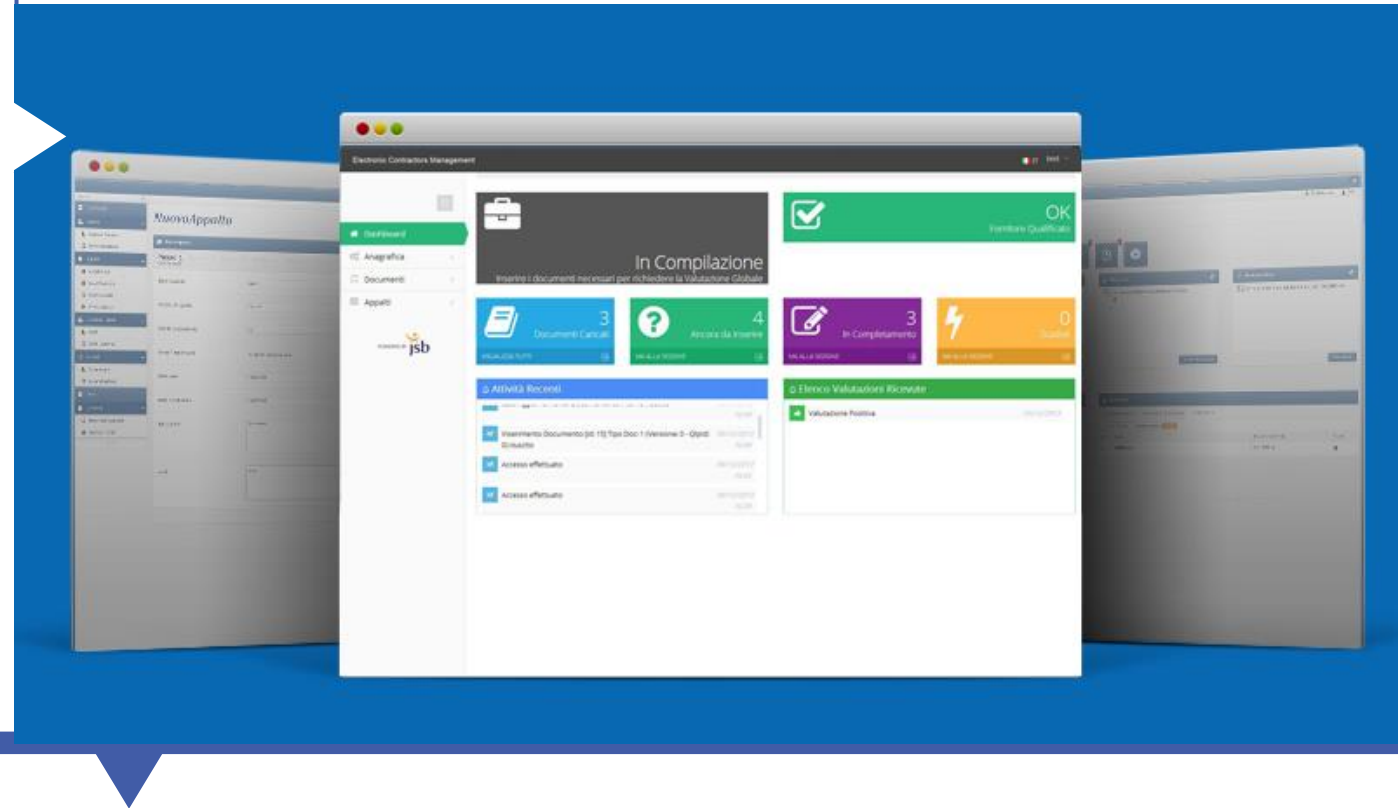

SAFETY CONTRACTORS

Contracts Management

Effective management of all contracts and subcontracting in compliance with the requirements of art. 26 of Legislative Decree no. 26. 81/08 on obligations related to contracts.

Optimal management of all security aspects in contracts with external suppliers and of the collection and orderly storage of tax and administrative documentation.

SAFETY COACH

Multimedia Trainer

A distance learning platform that shows the user the training to be carried out **based on the risks identified for the job covered.**

Through multimedia content that illustrate the behaviours to be maintained to ensure safety during work, each worker is able to **manage** any danger situations **independently.**

Advantages

- Customisable on the basis of the risk assesment of each company
- Easy installation on networks of different companies
- Cost reduction for internal and external training

It allows to manage all the routine activities ranging from the visit of the worker to the management of the schedule and to the production of the judgement of suitability.

The screenshot displays the 'Safety Booster' web application interface. The main heading is 'Sorveglianza Sanitaria : Lista Utenti'. Below this, there is a table with columns for ID, Nome utente, and Cognome. The table contains 10 entries, with the first one being ID 10, Nome utente f.c, and Cognome C. A modal window titled 'Inserisci Nuova Visita' is open, showing fields for Tipo (set to Extra), Dipendente (set to f.c), Medico, Data Pianificazione, and Data Prenotazione. The 'Inserisci' button is visible at the bottom of the modal.

ID	Nome utente	Cognome
10	f.c	C
100	a.de	DE
101	a.m	M
103	c.fio	FIO
104	c.c	C
105	d.be	BE
106	j.gi	GI
107	g.be	Be
108	g.lo	LO
109	d.m	M

SAFETY WASTE

Waste pick up Management

Management and monitoring of waste collection permits.

It helps companies to avoid waste collection from unauthorised drivers or vehicles.

Advantages

- Interactive Vehicle Control with Email Alert
- More effective control of unauthorised waste collection
- Efficient handling of vehicles, waste materials and pick-ups.

SAFETY WASTE

Waste pick up Management

Management and monitoring of waste collection permits.

It helps companies to avoid waste collection from unauthorised drivers or vehicles.

The screenshot shows the 'Nuova Consegna Waste' form. On the left is a navigation menu with options: Home, Fornitori, Appalti, Gestione Utenti, Riparti, Ruoli, Gestione Documenti, Waste, Abilitazione, Fornitori Abilitati, Codici CER, Storico Consegne, Nuova Consegna, and Admin. The main form area has a title 'Nuova Consegna Waste' and a sub-section 'Dati Consegna' with fields for 'Targa *', 'Autista *', and 'Codice CER *'. To the right is a 'Firma Consegna' section with a 'Password *' field and two buttons: 'Consegna' (green) and 'Annulla' (orange). The footer says 'Powered by jsb'.

The screenshot shows the 'Abilitazione Fornitori' (Supplier Authorization) table. The navigation menu is the same as in the previous screenshot. The table has a title 'Gestione Fornitori' and a 'Show 10 entries' dropdown. The table columns are 'Id', 'Abilitato', 'Ragione Sociale', 'Nome utente', and 'Email'. The 'Abilitato' column contains checkboxes, all of which are currently unchecked and labeled 'NO'. The 'Id' column contains the values 100, 105, 107, 108, 113, 114, and 115.

Id	Abilitato	Ragione Sociale	Nome utente	Email
100	<input type="checkbox"/> NO			
105	<input type="checkbox"/> NO			
107	<input type="checkbox"/> NO			
108	<input type="checkbox"/> NO			
113	<input type="checkbox"/> NO			
114	<input type="checkbox"/> NO			
115	<input type="checkbox"/> NO			

CHEMRISK

Chemrisk Management

Chemical Risk Management according to the main standards indicated and provided by Title IX of Legislative Decree 81/2008.

Suitable for any industrial sector (pharmaceutical, chemical, automation, industrial, energy, etc.)

Advantages

- Access through roles based on security responsibilities
- Chemical evaluation for activity and department
- Automated calculation of risk indices for each substance
